

# Major Roadworks affecting access to Businesses

We are replacing the old water main that runs along Hardy Street and into Vanguard Street (from Rutherford Street down to 70 Vanguard Street).

**Work is proposed to start 8 April and will last for approximately 12 weeks.**

We are working with businesses in this area to make sure the disruption is minimised, but there will be disruption to traffic.

See Shape Nelson for more information:

Please turn over for detailed maps.

## Vanguard Street – outside New World

08 – 27 April

A section of Vanguard Street will be closed from just after the southern entrance to New World to the Gloucester Street roundabout. Customers will still be able to use the southern entry/exit onto Vanguard Street or entry / exit at Gloucester Street.

## Gloucester Street roundabout

27 April – 4 May

Gloucester Street will be closed at the Vanguard Street roundabout to traffic travelling through or turning right onto Gloucester Street. Driving straight or turning left off Vanguard Street will still be allowed.
