

May 2022

Dear resident,

Asphalt & Construction Ltd will be working for Nelson City Council to construct a new watermain along Arapiki Road from Main Road Stoke to the Ridgeway.

The watermain was found to be in poor condition when the retaining walls on Arapiki Road were constructed. We are carrying out this work now as it was not possible to install a replacement while that work took place.

The first stage of the work will be from Main Road Stoke to outside #20 Arapiki Road. The second stage will extend from #20 through to the Ridgeway. Vehicle and pedestrian access will be maintained for the project.

This work will take approximately 16 weeks to complete and is scheduled to start on 23 May.

Please feel free to contact me if you have any queries.
