

1 March 2023

AWATEA PLACE WASTEWATER PUMP STATION – PROJECT UPDATE

Nelson City Council has received a road closure update from Hunter Civil Limited (HCL) to temporarily close the following road to ordinary traffic between the dates listed below:

Awatea Place – entire length

Date and time of scheduled closure: 7:00 am Wednesday 08 March to 6:00 pm Friday 16 June 2023.

This notified closure of Awatea Place is for the final stages of the pump station construction works. The start date could move out depending on investigation work and third-party availability to undertake service relocations.

HCL will talk to residents before starting the closure and will try to leave the road open if possible.

Closure of Awatea Place is required to:

- Allow changes in one lane traffic flows along Parkers Road for HCL to complete the manhole/pipe works and resurface Parkers Road.
- To start connection works at the corner of Awatea Place and Parkers Road including service relocations, sheet piling, excavation and pipe work on the existing pump station outside 1/1 Awatea Place.
- Completion of stormwater pipework at the airport end of Awatea Place.
- Removal of the temporary pumping main in the berm down Awatea Place.
- Final kerbing, berm reinstatement and road resurfacing works in Awatea Place.

Awatea Place will remain closed for the duration of the work. Work on the pump station site is scheduled to be complete in August 2023.

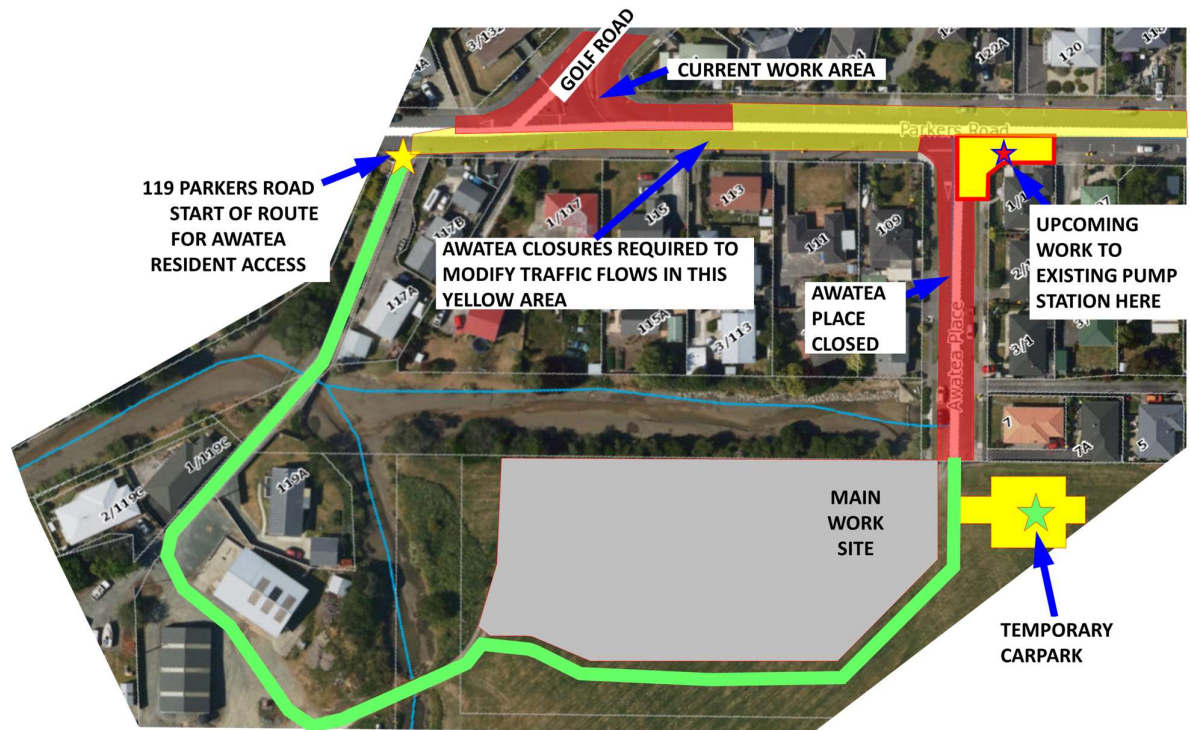

Where possible HCL will maintain vehicle access to residents' properties via the previously used driveway at 119 Parkers Road. When Awatea Place is closed to vehicle access, the temporary residents' car park area will be available. Pedestrian access will also be available. Rubbish and recycling bins will be collected as normal.

HCL will distribute further specific information to Awatea Place residents prior to closing the road and during specific stages of the work to keep residents informed.

This proposal is made in accordance with the Local Government Act 1974. Unauthorised use of vehicles on the road during the closure period is not permitted and may constitute an offence.

Internal Document ID: 1355221503-7608

An overall graphic of these points is shown below for reference.

Feedback can be sent:

In writing - Attention: Mike Booker, Nelson City Council, PO Box 645, Nelson

By email - enquiry@ncc.govt.nz

Nelson City Council would like to thank everyone in advance for your patience and understanding when road closures are required for infrastructure works.

Frequently asked questions

Why are road closures necessary?

Road closures help make sure an area is clear so that work can occur in a safe and uninterrupted manner. Ongoing traffic management isn't required, so work can be done quicker, resulting in less disruption and a lower cost to complete the job.

What happens if there is an emergency and a resident needs emergency services?

Emergency services will be given access during the day when workers are onsite. For after hours or 24/7 closures, a clear lane will be provided where emergency services can access a street. Emergency services are informed of all NCC road closures.

What access delays could be expected?

Times will vary depending on where the work is occurring in relation to any particular driveway, however, 10 – 20 minutes would generally be considered the worst-case scenario. Where your access is required to be closed for longer than these times (for example, to trench across your driveway or to pour a new concrete driveway/footpath) the contractor will inform you directly by coming to see you before starting work. Generally, driveway work and concrete curing will take 3 -5 days. Other work may take longer.

How will I know if there are any changes in the Road Closure dates?

Information regarding approved and pending road closures can be found by visiting:

<http://www.nelson.govt.nz/council/news/road-closures/>. For updates about Council's road maintenance programme, including the proposed dates/times for working on your street, please visit <https://shape.nelson.govt.nz/>

I need service/work done at my residence. How will this be affected?

We do understand that people may have work booked in, or need work done during a road closure. If you do, then please email us at enquiry@ncc.govt.nz and we will pass this information onto the Contractor. Once work gets underway, please discuss with staff onsite if you need special access.

What do I do with my recycling?

Recycling can be put out on your normal day, unless otherwise specified.

How will I know if my bus route is affected?

If the road closure affects the bus in your street, alternative route details will be provided in a letter to residents and posted at the affected bus stops (where needed).

Will I still be able to leave my street by car?

Unless otherwise stated, resident access will be available but delays may be possible. The same goes for carers and courier deliveries.

Will I still be able to walk on the footpath?

Unless otherwise stated, the footpath will be accessible and if not, there will be a detour for pedestrians to use.
