Kia ora,

### **Toilet installation and recontouring of ground levels for Hockey Reserve**

We would like to let you know that Nelson City Council has successfully received funding to replace the current portaloo at the Hockey Reserve.

In April 2023 we will be installing an accessible, unisex single cubicle toilet. We have received numerous requests for this, so it is exciting that we will be getting underway with this project soon.

We have also received queries from the community about the clay pump track that used to be on the north-west side of the playground.

After careful consideration, we have decided to take the opportunity to smooth out the lumps in this area while we have machinery on site for the toilet installation. We have found that the clay pump track is difficult to maintain, creating a safety issue. By smoothing out this area it will be easier to use and will be simpler for our contractors to keep tidy.

There could be future opportunities for this playground, which would be looked at as part of the next Long Term Plan (public consultation will occur next year).

In the meantime, if you have any suggestions on how you would like to see this area used, or any questions about the toilet installation, then please let me know by visiting our Shape Nelson online page [shape.nelson.govt.nz/upgrading-hockey-reserve-toilet](https://shape.nelson.govt.nz/upgrading-hockey-reserve-toilet)

Yours sincerely,

**Joshua Duncan**
