

Collingwood Street and Manuka Street Sewer Renewal

WORK STARTS 1 MAY

- The clay sewer pipes along Manuka Street and Collingwood Street are over 100 years old and are being replaced.
- The project is due to start after students return to school, and will last 12 weeks (weather dependent).
- It will require the closure of the intersection from Bronte Street (West) into Collingwood Street. The Northbound lane of Collingwood Street will also need to be closed, from Nile Street to Brougham Street.
- Detours will be in place for vehicles. Pedestrian access will be available.
