Kia ora,

BROOK STREAM – STREAMBANK REPAIRS AND REPLANTING

During the August 2022 weather event some of Nelson's rivers and streams suffered stream bank or stream bed erosion, and/or were inundated with flood debris. We need to remediate some of these areas to reduce the chance of the river flooding again and further damaging Council assets and/or private property.

We have identified an area of significant bank erosion along Brook Stream, located opposite 17 Sugarloaf Place. We are planning to stabilise this eroded bank using rock armouring (large rocks positioned on the bank). This work will start on Monday 4 December 2023. At the same time, we are planning to lay some natural rock in the stream bed where a wastewater pipe (that crossed the stream) has been exposed, opposite 360 Brook Street. This will prevent future exposure of the wastewater pipe by slowing the flow of water through this section of the stream.

The work will take around 2 weeks to complete (weather dependent).

The approximate area of repairs is shown in Figure 1 below.
