What are your priorities for enhancing Bridge Street?

7 out of 7 answered

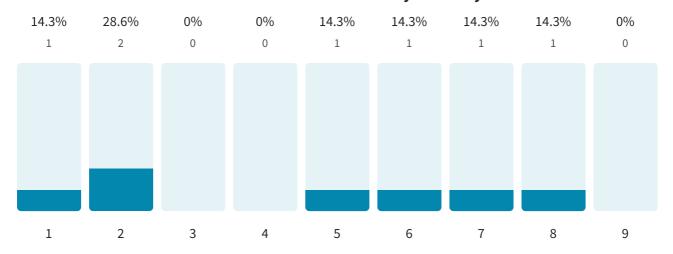

Parking - prioritised: Availability of on street parking for those with mobility challenges and for quick pick up/drop off visits.

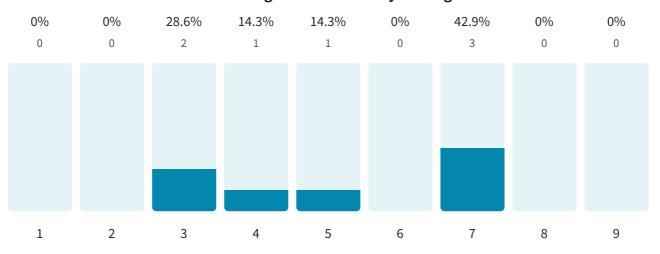

People-Friendly Spaces: Accessible design and amenities such as seating for safer and more enjoyable experiences.

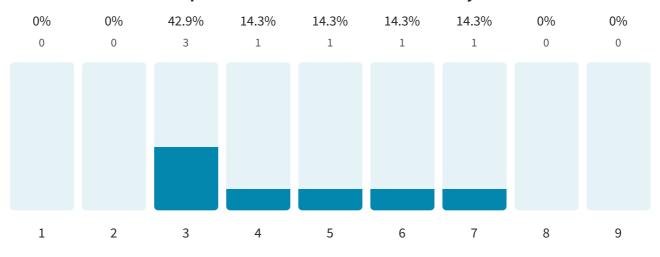

Arts and Cultural Features: Incorporating local artworks, cultural narratives, and creative elements that celebrate our city's identity.

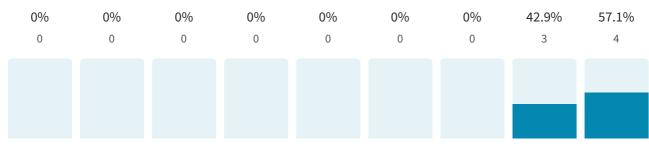

Enhanced Safety Features: Improved street lighting, seating, and other safety measures for a welcoming environment day and night.

Responsive Spaces: Flexible and interactive spaces for outdoor dining, markets, and popup events to boost local trade and activity.

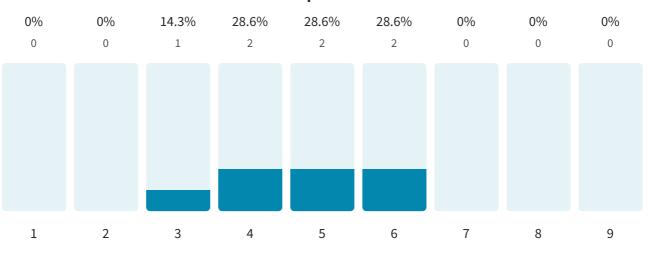

Parking - general: Availability of on street parking for all.

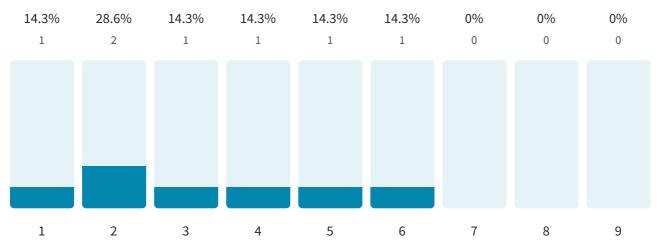

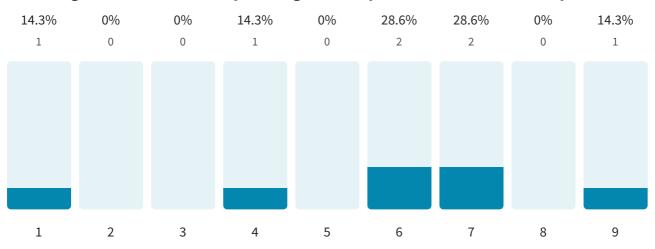

Play: options for children to play, either as part of the overall design or in a specific play space.

Active Transport: better connection to our active transport corridors to encourage more people to use alternative transport methods (bikes, scooters etc.) to visit the city centre.

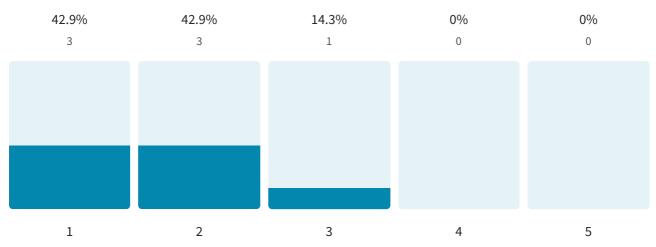

Housing: create more inner city housing so the city centre is vibrant seven days a week.

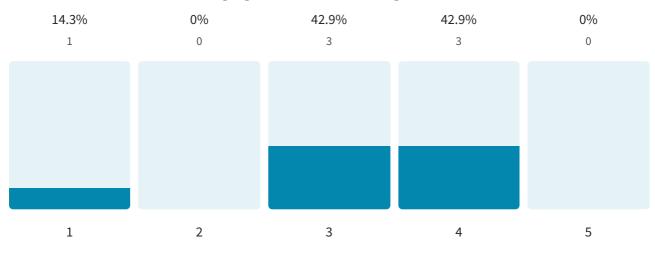

When it comes to on-street parking, what is your view on the hierarchy of priorities?

7 out of 7 answered

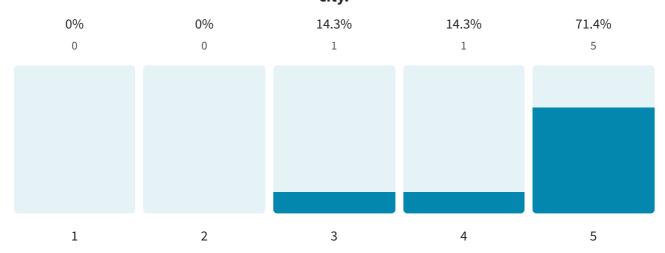

Accessible Parking: Reserved for individuals with disabilities, ensuring safe and convenient access to destinations.

Short-Term Parking (P60 or Lower): For brief visits to businesses and quick errands, encouraging easier access and higher turnover.

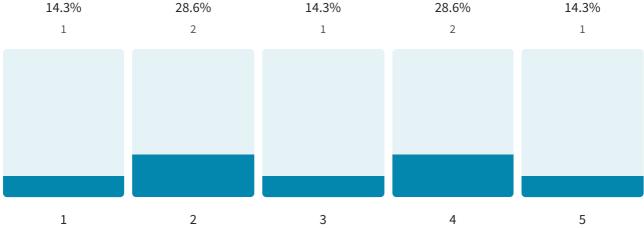

Long-Stay Parking (P120 or Higher): For longer visits for those requiring more time in the city.

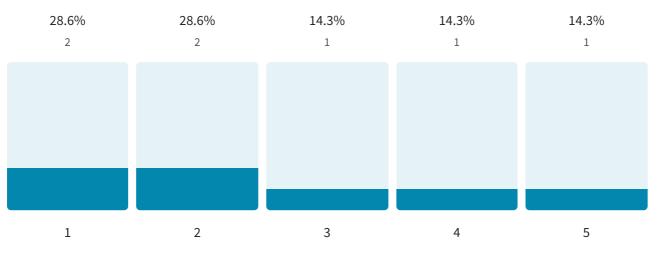

Community - Bridge to Better

Pickup/Drop-off Zones: For quick stops such as dropping off or picking up passengers, or click and collect customers.

Do you support prioritising higher parking turnover (P60 or less) on Bridge Street?

7 out of 7 answered

Yes

5 resp. 71.4%

Would you accept a reduction in on-street car parking on Bridge Street if it was offset with an increase in parking elsewhere in the city centre (resulting in no net loss of city centre parking)?

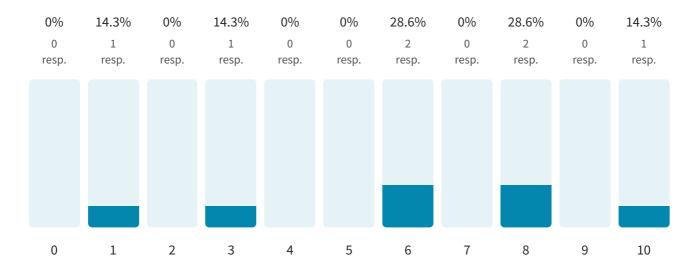

6 out of 7 answered
